Chief's Report

January 22, 2019

Calls

1-9-19 Cover assignment station 70

1-13-19 Cover assignment Station 70

1-19-19 149 Route 47 North Open Burn

1-20-19 Bucks Ave & Route 47 Motor Vehicle Crash

New struts have come in that were purchased will do training on them tonight.

New master intake valve for squad passenger side came in will be installed tonight.

New Flir thermal K2 for tanker 74 that was ordered also came in will work on installation tonight.

Hermans Jacket I spoke to Bill on January 15th and he said they are waiting for 911 rapid response to send it back.

Car 74 accident vehicle is scheduled for pickup tomorrow from the salvage company thru the insurance. All the requested info from the insurance was signed by a commissioner and sent back to them as requested to keep the process rolling. Chuck McGuire from chucks mobile lighting removed all the equipment from the car for no charge and all he asked was that we use him to reinstall. There are cars out on the market for sale only issue is we will have to travel to purchase 1 there are none left in tristate area. 12/8/18

We need to focus on a bed replacement for utility 74 due to the doors rotting off of the truck there are options out there as far as the same bed that is currently on there or do a bed with same kind of style with roll up doors on it cost could be a little higher but not drastic.

Grants should start to be awarded in March 2019 for the 2018 grant period. Government shutdown could set this behind.

New station generator has been purchased and is set to leave factory on March 29th. Need a electrician to come out sometime before then to remove the transfer switch wires that run to the current generator so we can remove the unit. Before new one arrives.

Accident at school house property the claim for property damage is being now handled thru progressive I am working with a adjuster named Carmen on the matter. 12/4/18
